HealthPoint Temporarily Closing Somerville Location

Somerville, TX – HealthPoint has made the difficult decision to temporarily close its Somerville Clinic. The last day of operations will be **February 28, 2025**. This decision comes after ongoing challenges in securing a full-time provider and financial sustainability. However, we remain fully committed to reopening the clinic as soon as possible with a dedicated provider in place.

HealthPoint is actively seeking a physician or experienced nurse practitioner who is passionate about serving the Somerville community. We welcome the community's help in identifying candidates for this position! If you know someone who would thrive in this role, and would love Somerville as much as we do, please have them email HR@HealthPoint-Tx.com.

“We know how important it is to have a consistent and trusted healthcare provider right here in Somerville,” said HealthPoint CEO, Terri Sabella. “Our goal is to reopen the clinic as soon as we find the right provider. Long-term success will also depend on the community's engagement and regular use of the clinic once we reopen.”
